7 x 64

The 7 x 64, which was introduced in 1917, is the most used hunting rifle cartridge in the Central European region. It was developed from the 7 x 57, which was already introduced in 1892. It is suitable for any cloven-hoofed game.

With the 165 gr GECO Softpoint bullet as well as with the 155 gr GECO Express and the 170 gr GECO Plus it becomes an all-round cartridge in Central Europe for the hunting use. In 2015 GECO introduced the lead-free GECO ZERO with 127 gr.

For the hunting-oriented practice shooting the GECO Target bullet is suitable.

GECO Softpoint

Thousands of roe deer have been shot with the legendary GECO Softpoint bullet which is suitable for universal use and in almost any hunting situation. It responds reliably in the game's body and has good target ballistic effectiveness. The thin walled jacket of the bullet is the secret of this successful design, deformation is initiated by the marked lead tip and then the jacket responds to the increased resistance, even with heavy game the deformation process remains well controlled.

Construction GECO Softpoint bullet

Universally usable and copes with almost any hunting situation.

1. **GECO Classic Tip:** For safe deformation and stability
2. **GECO Lead Core:** For a well-balanced performance
3. **GECO TS Jacket:** For precision and barrel protection
