E [J]		3974	3520	3110	2741	2403	2101	1831

### .30-06

The .30-06 has developed into probably one of the most popular universal calibres from its development in the year 1903 up until today. Quickly, this calibre was used in repeating rifles and break-open rifles.

GECO meets everybody's requirements with their bullets.

## GECO Softpoint

Thousands of roe deer have been shot with the legendary GECO Softpoint bullet which is suitable for universal use and in almost any hunting situation. It responds reliably in the game's body and has good target ballistic effectiveness. The thin walled jacket of the bullet is the secret of this successful design, deformation is initiated by the marked lead tip and then the jacket responds to the increased resistance, even with heavy game the deformation process remains well controlled.

### Construction GECO Softpoint bullet

Universally usable and copes with almost any hunting situation.

1. **GECO Classic Tip:** For safe deformation and stability
2. **GECO Lead Core:** For a well-balanced performance
3. **GECO TS Jacket:** For precision and barrel protection
