.243 Win.

The .243 Win. is a very accurate cartridge, which is well suited as a roe deer and fox cartridge. The .243 Win. offers a balanced performance ratio for hunting these types of game.

The .243 Win. is based on the case of the .308 Win. Anyone who wants to carry a standard calibre in 6 mm is well advised with the .243 Win. - the GECO Express bullet with 76 gr for hunting at long distances, as well as the Softpoint with 105 gr and the Target Line for hunting-oriented practice shooting.

GECO Softpoint

Thousands of roe deer have been shot with the legendary GECO Softpoint bullet which is suitable for universal use and in almost any hunting situation. It responds reliably in the game's body and has good target ballistic effectiveness. The thin walled jacket of the bullet is the secret of this successful design, deformation is initiated by the marked lead tip and then the jacket responds to the increased resistance, even with heavy game the deformation process remains well controlled.

Construction GECO Softpoint bullet

Universally usable and copes with almost any hunting situation.

1. **GECO Classic Tip:** For safe deformation and stability
2. **GECO Lead Core:** For a well-balanced performance
3. **GECO TS Jacket:** For precision and barrel protection
