Rottweil Waidmannsheil Pappe

The Rottweil Waidmannsheil Pappe is our classic shotshell: An extremely high-quality shotshell, which has been continuously further developed over the decades. The shot pattern of the Waidmannsheil Pappe is perfect in every respect.

The cardboard case is wear resistant and painted with an impact insensitive coating. Therewith very good protection against swelling in humid conditions is being achieved; and at the same time, the loading ability and the uniform release of the gas pressure are ensured.

In the last few years, in particular the construction of the cardboard wad and the fibre wad were further improved. The cardboard insert in the base ensures high stability

Rottweil Waidmannsheil Pappe at a glance:

- classic shotshell
- extremely high-quality
- cardboard case with an impact insensitive coating
- very good protection against swelling in humid conditions
- lead shot
- extra high quality 20 mm brass head
- protection of the barrel due to non-corrosive SINOXID® ignition
- Good protection against moisture due to waterproof coating of the extremely sturdy black cardboard case

Shotgun shell construction of Rottweil Waidmannsheil Pappe

1. Particularly environmentally friendly due to biodegradable cardboard case, fibre wad, cardboard wad, base wad and cardboard tube insert
2. Good protection against moisture due to waterproof coating of the extremely sturdy black cardboard case
3. Lead shot
4. Good patterning due to elaborated intermediate material combination, which allows a better use of the various chokes
5. Protection of the barrel due to non-corrosive SINOXID® ignition
6. Extra high quality 20 mm brass head
