

Rottweil Jagd braun Streu Plastik 12/70 2,7 mm

Item no. 2316843

Field of applications

Distance to 20 m

<i>Very well suited for</i>	Mallard, Bald coot, Pheasant, Gull, Rabbit, Wild pigeon, Snipe, Common snipe, Partridge
<i>Well qualified for</i>	Hare

Properties

<i>Shot size</i>	2,7 mm
<i>Shot number</i>	6
<i>Calibre</i>	12/70
<i>Brass head height</i>	20 mm
<i>Intermediate material</i>	Fibre wad/H-wad/Spreader device
<i>Mouth velocity</i>	375
<i>Load weight</i>	34 g
<i>Content single packaging</i>	10
<i>Compatible with calibre</i>	12/70, 12/76

Rottweil Jagd braun Streu Plastik

This special version of the Rottweil Jagd braun is ideally suited for the successful shot at short range, e.g. when hunting in the woods or duck hunting.

Rottweil was the first shotshell manufacturer, who had the idea of using the spreader device for hunting, which was originally designed for clay pigeon shooting. The spreader device achieves wide spread patterning of the shot cone up to approx. 25 m and therewith increases the hit chance. This feature helps prevent loss of game.

Rottweil Jagd braun Streu Plastik at a glance:

- special version of the Rottweil Jagd braun
- successful shot at short range
- hunting in the woods and duck hunting
- designed for clay pigeon shooting
- wide spread patterning
- Protection of the barrel due to non-corrosive SINOXID® ignition
- calibre 12/70 and 16/70

Shotgun shell construction of Rottweil Jagd braun Streu Plastik

1. The brown PE plastic case is highly resistant to moisture
2. At short range, very wide area of patterning due to spreader device
3. Lead shot
4. Cleaning of the barrel with every shot due to the fibre wad
5. The H-wad optimally seals off the powder chamber
6. Protection of the barrel due to non-corrosive SINOXID® ignition
7. Extra high quality 20 mm brass head
