Rottweil Special 16 F

The Rottweil Special 16 F offers the avid small game hunter a well-balanced shotshell at an excellent price/performance ratio. The environmentally friendly fibre wad in combination with the H-wad achieves a widespread and uniform patterning. With the Special 16 F, the focus of the shot pellet sizes was on the finer shot.

Rottweil Special 16 F at a glance:

- small game hunter
- shot pellet sizes
- green PE plastic case
- inexpensive short brass head
- higher hit rate with small game
- calibre 16/67,5

Shotgun shell construction of Rottweil Special 16 F

1. Green PE plastic case
2. Higher hit rate with small game: lead shot in small diameters
3. Higher environmental friendliness due to biodegradable fibre wad
4. The H-wad optimally seals off the powder chamber
5. Protection of the barrel due to non-corrosive SINOXID® ignition
6. Inexpensive short brass head
