<i>Shot number</i>	(SPSG)
<i>Calibre</i>	16/67,5
<i>Brass head height</i>	20 mm
<i>Intermediate material</i>	Fibre wad/H-wad
<i>Mouth velocity</i>	415
<i>Load weight</i>	22 g
<i>Content single packaging</i>	10
<i>Compatible with calibre</i>	16/65, 16/70

Rottweil Express

Rottweil Express buckshot shells are available in shot pellet diameters from 4.5 mm to 8.6 mm. The combination of high weight and velocity of the single buckshot pellets results in a particularly fast effectiveness.

The transparent case shows its contents at a glance.

Rottweil Express at a glance:

- buckshot shells
- shot pellet diameters
- high weight and velocity
- single buckshot pellets
- high energy release at the target
- environmentally friendly fibre wad
- extra high quality 20 mm brass head with 12 gauge
- Protection of the barrel due to non-corrosive SINOXID® primer

Shotgun shell construction of Rottweil Express

1. The transparent PE plastic case prevents erroneous use
2. High energy release at the target due to large, heavy lead buckshot
3. Environmentally friendly fibre wad cleans the barrel after every shot
4. Safe sealing off of the powder chamber with a plastic H-wad
5. Protection of the barrel due to non-corrosive SINOXID® primer
6. Extra high quality 20 mm brass head with 12 gauge
