<i>Brass head height</i>	12 mm
<i>Mouth velocity</i>	380
<i>Load weight</i>	28 g
<i>Content single packaging</i>	25
<i>Compatible with calibre</i>	12/65, 12/70, 12/76

Rottweil Fasan FF

The Rottweil Fasan is a well-balanced sport shotshell for competition and training. This qualitatively very high-quality training shotshell with biodegradable cardboard wad and fibre wad is extremely environmentally friendly. As a result, the clean up on the shooting range forefield is extremely simplified. Furthermore, the Rottweil Fasan offers ideal patterning due to the increased load.

Shotgun shell construction of Rottweil Fasan FF

1. PE plastic case in the colours green, red and yellow (depending on the gauge)
2. Especially environmentally friendly due to biodegradable fibre wad and cardboard wad
3. Achieves good hit rates due to well tuned intermediate material combination
4. Protection of the barrel due to non-corrosive SINOXID® ignition
5. Inexpensive 12 mm brass head with 12 gauge and 16 mm with 16 and 20 gauge
