

Rottweil Exact Magnum 20/76

Item no. 2317054

Field of applications

Distances from 20 m to 30 m

Suitable for Wild boar

Properties

<i>Shot size</i>	0 mm
<i>Shot number</i>	0
<i>Calibre</i>	20/76
<i>Brass head height</i>	16 mm
<i>Intermediate material</i>	Plastic wad
<i>Mouth velocity</i>	455
<i>Load weight</i>	26 g
<i>Content single packaging</i>	5
<i>Compatible with calibre</i>	20/76

Rottweil Exact Magnum

The magnum versions of the Rottweil EXACT deliver more energy at the target. Thus, the high stopping effect for wild boar is further increased.

Furthermore, the higher velocity of the magnum loads makes it possible to reduce the lead factor, which can influence the point of impact positively in particular with drive hunts.

Rottweil Exact Magnum at a glance:

- magnum version of Rottweil Exact with more energy
- high stopping effect
- higher velocity of the magnum loads
- drive hunting
- calibre 12/76 Magnum, 12/70 Magnum and 20/76 Magnum
- The aerodynamic shape of the bullet point with its spiral-shaped grooves improves the flight characteristics and the precision

Shotgun shell construction of Rottweil Exact Magnum

1. The aerodynamic shape of the bullet point with its spiral-shaped grooves improves the flight characteristics and the precision
2. Driving bands at the upper and lower part of the bullet allow an easy passage through the barrel and choke. With this, best precision is achieved with any choke. Furthermore, leading of the barrel is reduced, as only the driving bands of the bullet touch the barrel bore
3. The compressible plastic tail section cushions the shot and ensures a stable flight attitude.
4. The transparent PE plastic case prevents erroneous use
5. The special magnum powder load increases the bullet velocity. This increases the impact energy and reduces the lead factor with running game
6. Protection of the barrel due to non-corrosive SINOXID® ignition
7. Extra high quality 20 mm brass head
