.300 Win. Mag.

The .300 Win. Mag., which was introduced in 1963, became a success story worldwide. It is a true all-round cartridge with sufficient power for diverse forms of demanding hunting for hard to kill game. The .300 Win. Mag. is suitable for all cloven-hoofed game.

GECO introduced the 170 gr GECO Softpoint bullet in 1996, the 170 gr GECO Plus and the 165 gr GECO Express followed in the year 2011. The latest innovation is the lead-free GECO ZERO with 136 gr.

GECO Express

The GECO Express gives a flat trajectory, a high bullet velocity and a fast energy transfer – all combined in a unique new GECO design. The streamlined bullet shape combined with the new GECO Express Tip allows for extremely precise long distance shots without correction of the aiming point. The jacket design allows high bullet velocities which are maintained right to the target and give an extremely high energy yield resulting in clean kills.

Construction GECO Express bullet

Suitable for any hunting situation and reliable in effectiveness when long distance shots are required.

1. **GECO Express Tip:** For precision and flatness
2. **GECO BC-Shape:** For a low air resistance
3. **GECO Special Jacket:** For high knock-down power
