7 x 57

Already in 1892, the Mauser company introduced the 7 x 57. The GECO range meets the demand of owners of ordnance weapons with this calibre still today. In hunting, this calibre plays a minor role today. For this reason, only the Target-Line is offered in order to allow a precise and economic shooting pleasure and the lead-free GECO ZERO bullet with a weight of 127 gr.

GECO Softpoint

Thousands of roe deer have been shot with the legendary GECO Softpoint bullet which is suitable for universal use and in almost any hunting situation. It responds reliably in the game's body and has good target ballistic effectiveness. The thin walled jacket of the bullet is the secret of this successful design, deformation is initiated by the marked lead tip and then the jacket responds to the increased resistance, even with heavy game the deformation process remains well controlled.

Construction GECO Softpoint bullet

Universally usable and copes with almost any hunting situation.

1. **GECO Classic Tip:** For safe deformation and stability
2. **GECO Lead Core:** For a well-balanced performance
3. **GECO TS Jacket:** For precision and barrel protection
