GECO HEXAGON (revolver cartridge)

The GECO HEXAGON is not only available as precision cartridge for pistols. In 2015, GECO introduced this cartridge also for revolver.

The pollution-free Revolver cartridge GECO HEXAGON with Sintox ignition is available in caliber .357 Magnum.

The most important product features:

- 1) **Aerodynamically favourable silhouette** for a flatter trajectory
- 2) **6 stabilisation grooves** produce a "golf ball effect"
- 3) **Centre of gravity optimised** and moved back for better precision
- 4) **Improved barrel fit** due to the long cylindrical shank

Construction GECO HEXAGON

1. **Closed base** eliminates lead emissions
2. **High-performance propellant** for uniform velocity
3. **Precision case** with optimised concentricity
4. **NATO-approved SINTOX primer** containing no heavy metals
