Length over barrel:	84 mm	Internal thread dimension:	18x1
Length extension:	140 mm	Magnum usability:	No
Overall length:	224 mm	Diameter barrel:	45 mm

VARIANT DESCRIPTION

Slimmer, lighter and more effective! Outstanding silencing performance of up to -30 dB, combined with a slimmed down and lighter JAKT JD224 appearance, as well as a 45 mm diameter and 290 g lightweight. This is what the 224 mm long over-barrel LITE version of the multi-talented, hunting classic offers. So if you

want to protect your ears effectively with lightness and only a small weapon extension of 140 mm, you should opt for this technical solution. However, JD224 LITE is only available in one length and not as a colourful variation, but is available with the additionally integrated XTRM steel mesh fabric for even more silencing performance.
