VARIANT DESCRIPTION

The proven and globally appreciated JD224 from the HAUSKEN JAKT product line is now also available as an extremely robust Titanium core variant. The JAKT JD224 HYBRID TITAN silencer combines like no other quality, performance and practicality. Thanks to its hard anodized and reinforced aluminum housing, as well as the and the indestructible class 5 titanium core, the silencer is also suitable for magnum calibers and fast shot sequences. This allows the long-awaited use in the shooting theater or on the shooting range! The diameter of 50 mm allows a correspondingly good gas distribution inside, thereby a balanced sound pressure level reduction of approx. -30 dB is achieved. Whereby the rifle, with only 140 mm barrel extension and the proven HAUSKEN over-barrel design, the rifle also remains precise and easy to handling.
